

PROOF OF VACCINATION REQUIRED WITH REGISTRATION FOR ON-CAMPUS CLASSES

PAFA has mandated that the COVID-19 vaccine will be required for all students enrolled in on-campus classes, in PAFA studios, or using campus facilities for the 2021-2022 academic year.

PAFA's Continuing Education Program requires proof of vaccination upon registration.

UPDATE: PAFA now requires all eligible students, faculty, staff, and models to receive a COVID-19 booster shot by January 17, 2022, or as soon as they become eligible for the booster shot.

**Submit proof of vaccination/booster
HERE.**

The above text box links to a Google form with a brief series of questions and the requirement to either upload an image of your COVID-19 vaccination card or to request a medical/religious exemption with documentation. **You will need:**

- **A Google account.** If you do not already have one, it is free, quick, and easy to make a new account: The survey form will connect you to this option to enter your name and create a password. (You can also make an account in advance at <https://accounts.google.com/signin>.) You will not need a Gmail email address – there is a “use my current email address instead” option. *This is a required security measure so that you can upload your vaccine documentation to PAFA for review. We apologize for the inconvenience but cannot omit this step.*
- **A scanned or photographed image of your vaccination card.** We recommend that you save the image to the computer or other device you will be using for registration, where you can easily locate it (such as on your desktop). **If requesting an exemption, alternative documentation such as a doctor's note or statement describing the conflict with religious beliefs will be needed.**

Please note:

- All CE students returning to campus classes must be **fully vaccinated (two weeks** after the second dose of the Pfizer or Moderna vaccines or after the single-dose Johnson & Johnson/Janssen vaccine) prior to their first day of class. Proof of vaccination should be submitted only after all necessary doses have been received.
- **UPDATE: PAFA now requires all eligible students, faculty, staff, and models to receive a COVID-19 booster shot by January 17, 2022, or as soon as they become eligible for the booster shot.** Eligible individuals are those who received their second dose of the Pfizer or Moderna vaccination at least six months ago OR received the Johnson & Johnson vaccination at least two months ago.
- **Proof of the full two-dose Pfizer/Moderna or single-dose Johnson & Johnson vaccination must be submitted even if the booster shot has not yet been received.** PAFA allows provisional access for vaccinated individuals awaiting eligibility requirements for the booster but cannot permit access to PAFA's campus without the initial full-dose vaccination. Students awaiting booster eligibility must promptly resubmit proof of vaccination after receiving the booster.

- **Medical and religious exemptions can be requested on the above form and will be granted based on the specific circumstances of each request.** Requests for exceptions must be submitted with appropriate documentation and approved by PAFA's head of security. Students seeking an exemption should contact pafahealth@pobox.pafa.edu for questions.
- **PAFA reserves the right to refuse entry to students who have not provided proof of vaccination, as well as proof of a booster following eligibility requirements, and have not been approved for exemption.** Proof of vaccination is a condition of CE on-campus course enrollment and will be reviewed for omissions, incomplete dosage requirements, and exemption requests. **CE will make a reasonable effort to alert students to incomplete vaccination/exemption requirements; however, continued violation of this policy will result in the withdrawal of enrollment with cancellation fees, per withdrawal policies.**
- See the CE Policy Guide (linked below course descriptions) for more information about COVID-19 safety requirements and other policies for CE students. Watch for updated PAFA-wide information at <https://www.pafa.org/news/coronavirus-information-resources>. Email continuinged@pafa.edu for policy questions or pafahealth@pobox.pafa.edu for vaccine or exemption concerns.
