**Location:** Room 740, 7th Floor / Samuel M.V. Hamilton Building, 128 N. Broad Street, Philadelphia, PA 19102

---

## **CLAY**

- 25 lbs gray clay to start with.

## **TOOLS**

Sculpture House has 2 nice Modeling Tool Kits available online. They deliver in a few days.

<http://www.sculpturehouse.com/s-134-modeling-kits-and-sets.aspx>:

1. Artists' Choice Clay Modeling Kit
2. Atelier Clay Modeling Tool Kit

OR you may purchase individual tools:

I prefer wood tools, but plastic is OK, although these tend to bend or break

- One large tool 6- to 10-inches long
- Several smaller tools
- A "loop" or "rake" tool
- A ceramic metal "rib" tool—you want one that's a little flexible. You can also use a piece of flexible plastic (like a fake credit card they send in the mail – these are nice because you can cut them down).

## **OTHER SUPPLIES**

- A spray bottle for water
- A plastic trash bag

## **PLYWOOD**

- At least 12 x 12 inches (You may be able to get a piece of scrap from Home Depot)
- Wooden dowels, chopsticks, skewers (these will help stabilize your sculpture while you're working)

## **SUPPLIERS**

- Blick Art Materials—Broad and Chestnut Street
- Sculpture House—can order online and have delivered that week
