Print Shop Access for CE Students

- Access to the Print Shop for any CE student enrolled in a printmaking course begins on the first day of the scheduled class and ends on the last day of the scheduled class.
- Like all students, CE students may not use a shop while classes are in session in that area.
- All students using the shop outside of class time must be able to work independently with the materials and equipment they are using.
- Matriculating students will take precedence over CE students when there is any overlapping need for equipment.
